

STUDENT CAREER ESSAY

What Do You Want to Be?

Do you see yourself as the next great American inventor? Maybe you're thinking about becoming a lawyer, an architect, a filmmaker or a photographer. There are as many career options out there as there are stars in the sky, so when it comes to your future — think big!

You may change your mind about a career as you get older, but it's important to have information about all types of careers as early in life as possible. Whatever you want to do, education beyond high school can help you make the most of your life.

You can find information on all types of careers, and the education and training needed for each, at the websites listed on the back of this page. You can explore other resources, or read about or talk with someone who does this type of work, to find out even more about what you want to be.

After you've researched the career you're interested in, follow the instructions for writing an essay.

Dream big!

The future is waiting for you.

You can also view these instructions and the websites listed on the back of this page at www.MatchThePromise.org.

(Your parents can find information on essay scoring criteria on Page 5 of the Description and Application Instructions.)

Essay Instructions

- The essay should be 200 to 300 words. (That's about as long as the top half of this page.)
- Be creative — make up your own title.
- Tell us what career is of interest to you and why.
- What type of education or training will you need for the career?
- What are the opportunities for this type of work in the future?
- Tell us what steps you took to learn about the career.
- Don't forget to pay attention to spelling and grammar while writing the essay.

Written an essay for our program before?

- Don't reuse an essay you've submitted before.
- If you're still interested in the same career, tell us what you've learned since the last essay. If you have another career in mind, tell us about that one.
- If you're writing about the same career, you might want to learn about someone who does this type of work and use the example to explain why you find this career interesting. You might also want to think about the problems you want to solve when you grow up.
- Remember to still include the other information under Essay Instructions above.

Essay Tips

- Include your first name on the essay.
- Help us protect your privacy — please don't include your last name or other personal information, such as your current age, grade, school and city, when writing the essay.
- Use your own words. If you quote a source, keep it brief, and be sure to use quotation marks and say where the quote comes from.
